PROFILE

Full-stack developer and automation engineer with 4+ years of experience building web applications and intelligent workflow systems. Proficient in React, Node.js, and modern JavaScript for responsive full-stack applications, alongside n8n and Python for AI-powered automation — including chatbots, RAG pipelines, and multi-platform integrations (LINE, Telegram, Facebook). Experienced with LLM orchestration via OpenRouter and Google Gemini, vector databases for knowledge retrieval, and real-time webhook-driven architectures. Currently pursuing a Level 5 Diploma in Computing with Data Science, expanding into AI and data-driven development.

WORK EXPERIENCE

Full-Stack Developer & Automation Engineer

Evercomm (Singapore)

10/2022 – Present | Mandalay, Myanmar

- Designed and deployed **production n8n automation workflows** including AI chatbots, RAG document processing pipelines, and scheduled reporting systems, significantly improving operational efficiency.
- Built and maintained responsive frontend applications using **React, Tailwind CSS, and Framer Motion**.
- Developed robust backend services with **Node.js, Express, REST APIs, JWT authentication**, and databases (MongoDB, Supabase).
- Architected **Retrieval-Augmented Generation (RAG) system** with PDF ingestion, Supabase Vector Store, Google Gemini embeddings, and conversational memory for domain-specific knowledge retrieval (e.g., SGX sustainability & climate reporting).
- Integrated **LLMs (OpenRouter & Google Gemini)** for natural language understanding, content summarization, and automated customer engagement across LINE, Telegram, and Facebook.
- Customized WordPress websites with theme/plugin development and SEO optimization.
- Implemented professional error handling, retry logic, real-time alerting, and 90-day data retention for reliable production workflows.

Junior Developer

Myanmar Smart City

01/2022 – 06/2022 | Yangon, Myanmar

- Developed responsive web applications using HTML, CSS, JavaScript, Bootstrap, and PHP.
- Contributed to Laravel-based backend features and database integrations.
- Collaborated in Agile environment using Git/GitHub for version control.

EDUCATION

NCC Level 5 Diploma in Computing with Data Science

NCC Education (Greenwich University, UK)

02/2026 – Present | Yangon

NCC Level 4 Diploma in Computing

NCC Education (Greenwich University, UK)

10/2024 – 10/2025 | Yangon, Myanmar

SKILLS

Frontend Development

React, JavaScript (ES6+), Tailwind CSS, Framer
Motion, HTML5, CSS3, Bootstrap

Backend Development

Node.js, Express.js, PHP, Laravel, REST APIs, JWT
Auth
