PROFILE

Full-stack developer and automation engineer with 4+ years of experience building web applications and intelligent workflow systems. Proficient in React, Node.js, and modern JavaScript for responsive full-stack applications, alongside n8n and Python for AI-powered automation — including chatbots, RAG pipelines, and multi-platform integrations (LINE, Telegram, Facebook). Experienced with LLM orchestration via OpenRouter and Google Gemini, vector databases for knowledge retrieval, and real-time webhook-driven architectures. Currently pursuing a Level 5 Diploma in Computing with Data Science, expanding into AI and data-driven development.

WORK EXPERIENCE

Full-Stack Developer & Automation Engineer

- Evercomm (Singapore)
10/2022 – Present | Mandalay, Myanmar
- Built and maintained frontend applications using React, Tailwind CSS, and Framer Motion with scalable component architecture.
 - Developed backend services with Node.js and Express including REST APIs, JWT authentication, and database integration (MongoDB, Supabase).
 - Designed and deployed n8n automation workflows — AI chatbots on LINE/Telegram/Facebook, RAG document pipelines, and scheduled reporting systems.
 - Integrated LLMs (OpenRouter, Google Gemini) for NLU intent parsing, content summarization, and automated customer engagement.
 - Built a Retrieval-Augmented Generation system with PDF ingestion, vector embeddings (Supabase Vector Store), and conversational memory.
 - Developed and customized WordPress websites including theme/plugin development and SEO optimization.
 - Implemented professional error handling, retry logic, and real-time alerting for production automation workflows.

Junior Developer

- Myanmar Smart City
01/2022 – 06/2022 | Yangon, Myanmar
- Developed responsive websites using HTML, CSS, JavaScript, Bootstrap, and PHP.
 - Collaborated on Laravel-based applications, contributing to backend functionality and database integration.
 - Used Git/GitHub for version control and participated in Agile team workflows.

EDUCATION

NCC Level 5 Diploma in Computing with Data Science

NCC Education (Greenwich University, UK)
02/2026 – Present | Yangon

Level 4 Diploma in Computing

NCC Education (Greenwich University, UK)
10/2024 – 10/2025 | Yangon, Myanmar

SKILLS

Frontend Development

React, JavaScript (ES6+), Tailwind CSS, Framer
Motion, HTML5, CSS3, Bootstrap

Backend Development

Node.js, Express.js, PHP, Laravel, REST APIs, JWT
Auth

Databases

MongoDB, MySQL, Supabase, PostgreSQL, Vector
Stores

Automation & AI

n8n, Python, OpenRouter, Google Gemini, RAG, LLM
Integration, Webhooks

Platforms & APIs

LINE, Telegram, Facebook, WhatsApp, WordPress

Tools

Git/GitHub, VS Code, Cursor, Claude Code, Vercel,
Docker basics
