📄 PROFILE

Motivated and adaptable Full stack developer with 4+ years of cumulative experience in web development, beginning with basic skills in HTML, CSS, JavaScript, Bootstrap, PHP, Git/GitHub, and Laravel, and building into contemporary technologies like React, Node.js, Express, Tailwind CSS, and WordPress. Adept at building responsive, user-designed applications with front-end and back-end comprehension. Presently pursuing a Level 4 Diploma in Computing at NCC Education (Greenwich University) to complement my academic knowledge alongside practical experience.

My purpose is to utilize my technical knowledge and problem-solving skills to contribute to exciting innovative projects to grow my knowledge as a full-stack developer, ultimately leading to a senior developer position in scalable web applications, modern frameworks, and best practices in software engineering.

📁 WORK EXPERIENCE

Full-stack Developer

Kumo Solutions

10/2022 – Present | Mandalay, Myanmar

- Built and maintained **frontend applications** using **React** and modern libraries, focusing on scalability and clean architecture.
- Implemented **state management** and reusable components to optimize code efficiency and maintainability.
- Collaborated with backend teams to integrate **RESTful APIs**, ensuring seamless full-stack functionality.
- Enhanced **UI/UX** using **Tailwind CSS**, delivering responsive, accessible, and modern designs.
- Since Jan 2025, expanded responsibilities to **full-stack development** with **Node.js** and **Express**, building secure and performant backend services.
- Developed and customized **WordPress websites** including theme/plugin development and **SEO optimization** for client needs.
- Maintained strong coding standards, conducted regular testing/debugging, and followed best practices in **Git workflow** and **Agile development**.

Junior Developer

Myanmar Web Company

01/2022 – 06/2022 | Yangon, Myanmar

- Developed and maintained responsive websites using **HTML, CSS, JavaScript, Bootstrap, and PHP**.
- Collaborated with senior developers on **Laravel-based applications**, contributing to backend functionality and database integration.
- Used **Git/GitHub** for version control and team collaboration.
- Assisted in debugging, testing, and deploying projects to production.

LANGUAGES

Burmese

English

INTERESTS

- I am passionate about full-stack web development and continuously exploring modern web technologies. I enjoy building interactive and scalable applications using React, Node.js, Express, Laravel, and WordPress. I have experience with front-end frameworks and tools including HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, and Git/GitHub. I am also interested in learning new frameworks, improving development workflows, and contributing to meaningful web projects. Currently, I am pursuing a Level 4 Diploma in Computing at NCC Greenwich University to deepen my technical knowledge and stay updated with industry trends.
